DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 20-37 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Knopp et al. US Patent No. 6,099,522.

As to claims 20, 29 and 30, Knopp et al. disclose a surgical laser system comprising a surgical laser and a controller adapted to control the laser to produce a cut surface inside an eye lens using multiple laser pulses as claimed. Furthermore, the controller of Knopp et al. is capable to provide the recited functions as claimed. Hence, at the time of the invention, one skilled in the art would have used the controller of Knopp et al. to provide the claimed functions.
